

**AMENDMENTS TO THE CLAIMS:**

*The following listing of claims replaces all prior versions and listings of claims in this application.*

**LISTING OF CLAIMS:**

- 1-7. (Cancelled)
8. (Previously Presented) Roll peeler, for peeling material, comprising:
  - at least one pair of rolls in a housing;
  - a feeding device for feeding the material to be peeled;
  - a pneumatic conveying device provided between the feeding device and a roll gap between the at least one pair of rolls;
  - the pneumatic conveying device comprising a feed pipe; and
  - an air connection, wherein a lower end of the feeding device is constructed as a chute, and is arranged above a venturi tube of the feed pipe, and wherein an aspiration connection is provided on the housing and is on or above a roll level of the rolls.
9. (Previously Presented) Roll peeler as per claim 8, wherein the feed pipe located in front of the roll gap is built as a deflector arc whose assumed extension line is approximately vertical to the connecting line of the rolls' axes.
10. (Previously Presented) Roll peelers as per claim 8, wherein the feed pipe can be swivelled or pivoted.

11. (Previously Presented) Roll peelers as per claim 8, wherein the feed pipe's cross-section is rectangular and its inner width corresponds to a length of the rolls.

12. (Previously Presented) Roll peeler as recited in claim 8, wherein the rolls are rubber rolls, and the material is cereal.

13. (Previously Presented) Roll peelers as per claim 9, wherein the feed pipe can be swivelled or pivoted.

14. (Previously Presented) Roll peelers as per claim 8, wherein the feed pipe's cross-section is rectangular and its inner width corresponds to a length of the rolls.
